Arrival of Gamsby's Coast Survey Party from Bute Inlet. The last of the survey parties -but Moberley's-arrived from Bute Inlet yesterday afternoon by the steamer Sir James Douglas The party-of which Mr. Gamsby is engineer in charge-are all in excellent health, and in charge—are all in excellent health, and notwithstanding the roughness of their trip, appear in good spirits. They have lately been running a line on the west side of Valdez Island, which is six miles in length, and much shorter and more feasible than that which had been run on the east side. The ses coast, down from the mouth of the Homather river, although presenting in many places a very rugged surface, gives assurance of a very favorable grade being attained. The party have done one hundred miles of good work from the starting point, "Murderer's Bar," on the banks of the Homathco river, approaching the canyon. They were com-pelled, from the severity of the weather, to leave some four miles of their last line incomplete, and having moved camp down to Menzies Bay, where they were picked up by the Douglas on Sunday morning last, at 7 o'clock. The line has been run on the west side of the Homathco river, whilst the trail, which was originally built by the Waddington party is on the east. An opinion seems e prevalent that the question of spanning the Seymour Narrows, is simply one of ex-pense; its feasibility no longer remaining in doubt. The plans of the party will in all cability be completed at Ottawa.

[AIR-LUCY MEAL ] With weeping and with laughter
The story will be told,
How the true and trusty once
Gained portfolioe lined with gold.

John Wobson and his finaster,
By their empty puckets swore;
The Ministry of Mcs reight,
Should soon exist no more.
By their empty pockets swore it,
And named a certain day
When Daye's man—the lale thus ran—
Would bring McCreight to bay.
With weeping, &c.

Bast and west and south and North,
This news flow-very fast;
The knowing ones winked and tittered,
John is "arter" the cash at last;
A portfolio John did offer
To the brave and bold Hum—tray—

If he'd move a want of confidence In the "crowd" across the Bay. With weeping, Out spoke the noble Lilly-wit, Mac, you've no satisfaction given;
Before to-morrow's sun goes down,
You'll be couped upon the midden.
There'll be chosen one great prophet,
The wisest of the land—
John Wolson shall be premier—

Next day—out spoke DeCosmos, In a voice both firm and clear Gentlemen—His Excellency Has made me your Premier. That intimation great consterns Some members made among ; Says John, Oh! dear, I fear, I fear,

oh! Day .-- we are undone
With weeping, &c. No ferry boat did DeCosmos take,
From the rusims of Duvid's throng;
Etauuch men—no weather cock—he'd have,
Was that where he was wrong?
DeCosmos who has ever fought
For freedom and reform;
Heads not your idle words John,

Now glory to DeCosmos,
Who has fought the battle thro';
And like a wise and prudent general,
Shock hands with Cariboo. Shook hands with care.
And glory to the Doctor,
And to Beaven and Armstrong too;
Long may they live in unity—but the cud
Of bitter fancies, leave that for John to chew.
With weeping, &c.

With weeping, &c.

DeCosmos—now I axes, can you—
Put honest John on pay?

And you to this should answer yes,
He'll shout, hip, hip, hurra.
For i you can, John's not the man,
To sink into dismay;
When lacking sense, and wanting pence,
He upset the Ministry.
With weeping, &c.

But one word more I have to say-

But one word more I have te say—
The truth I will unfold—
I do regret I did not get
A portfolio lined with gold.
Of that bereit now nought is left,
But away to Skeena River;
And dig and delve like Wobeon's twelve,
Until I fill my quiver.

## Horse Disease.

EDITOR STANDAND:-The prevalence parties concerned were they to "see" the col-lector prior to being brought before the land, at this season last year, should not be forgotten by farmers. No disease is so instdious in its attack, or so dangerous if neg-lected; now is the time to take precautionary measures, for the disease is easily kept away f the animals are watched and attended to in time. A complete change of diet at this time of the year is always beneficial, from hay to clean bright out str w, then back to hay, an occasional feed of cats, for those who do not feed grain during tue winter, turnips,

carrots or small potatoes.

I have fed my horses the past two months three handfulls of oil cake meal with their grain, and I am satisfied from the appear ance of the dung that staggers are a long way off. I believe fully in this as a preventive of staggers, as it keeps the bowels slightly open, and the quantity can be so increased as to physic the horse considerably, commencing with a small pinch of the meal in the grain and the borse will soon learn to take as much as you want to give him, or it ean be fed with chopped straw and meal or bran muistened. For old horses good oat straw chopped and mixed with meal and bran is better than bay in the winter time. The harbour of Victoria derives its importance from the fact that Victoria, the capital of British Columbia, is built at its head. This town is but eighteen miles from the island of San Juan, which island is also less than sever miles from a part of the shore of Vancouve Island. The entrance to Victoria harbour is shoal, narrow, and intricate. It would appear that it would have been much better if the capital had been built at Esquimalt harbour, in the immediate vicinity. This harbor may hereafter attach some importance, especially if the Pa ific announced by telegraph? ta n some importance, especially if the Pa ific railway should be in the vicinity. Between its outlet and Vancouver Island, is situated Valdez Island. Milbank Sound lies still furher north, and at present this harbor is of no importance; but it may become valuable if the Peace river should attract a gold mining population. St am vessels from Nanaimo ascend the river Skeens, which is one of the routes by which Omineca, on Peace river; may be reached. A little further to the north than the Skeens is the river Naas, which gives access to a more northern region than hat of the Skeena. Both rivers are valuable in respect of the fisheries, and are navigable over a considerable part of their course. The

river Naas is quite close to the frontier of Alaska, which by no means lessens its importance. The s eamer Union ascended it in 1865, to a distance of more than 25 miles from its mouth. The case of the Drain Co. was very ably conducted by Cap. G. W. Robinson the Chairman, and the case of the Cariboo Co. by Mr Park, Barrister.

The principal points of public interest in the Drain Co. case were:

Whether mining companies, being shareholders in the Drain, could offset work done by the Drain Co. in the drain by work done

The same procedure applies equally well for earing sore throat, diptherria bronchitis, asthms, tightness of the chest, and pain in the side, which instant trea ment alone prevents degenerating the more serious maladies. The Olutment has the some derivative powers over chest complaints as a blister possesses. without causing pain or debility.

Let such purchase a pot of Holloway's Ointment, read the direc tions which accompany it, act up on them to the letter, and they will, without difficulty, succeed in obliterating every vestige of these barrassing ailments. ACCIDENTAL INJURIES, INFANTILE AILMENTS

In ents, bruises, sprains, burns, and scalds, it will be found cooling, sedative and healing. The part effected should be fomented in warm waier, dried genily, and the Ointment should be instantly applied.
